It is comfortable to have a place to go for things to wear that you feel is perfectly safe. Where the goods are reliable, the prices reasonable and the dealer anxious that you should have just the right thing—so anxious that he is glad to have you bring back whatever you prefer not to keep, or find unsatisfactory after use.

Such a dealer wants your custom this year and next, and as long as you wear clothes, wherever you reside.

There are three such stores in New York stocked with Clothes, Shoes, Hat, Furnishings, conducted on the above basis. All on Broadway and owned by

Exhaustion

Horsford's Acid Phosphate.

The phosphates of the system are consumed with effort, and exhaustion usually indicates a lack of supply. The Acid Phosphate supplies the phosphates, thereby relieving exhaustion, and increasing the capacity for labor. Pleasant to the taste.

DR. A. N. KROUT, Van Wert, O., says:

"Decidedly beneficial in nervous exhaustion."

DR. S. T. NEWMAN, St. Louis, Mo., says:

"A remedy of great service in many forms of exhaustion."

NEW YORK CITY.

Office: 40 East 23d Street.

PRESS OF WM. R. JENKINS, 851 & 853 SIXTH AVENUE.

We are a religious and social organization of the students of New York City. At the opening of the college year we would be a host to the new student and welcome him to the city, to the college and especially to our number. We hope that this Hand-Book will be of service to him and that its information will save him time and trouble. Later we shall have informal receptions and religious meetings where he will have an opportunity of meeting his fellows. Before the winter is over we hope to have permanent headquarters which shall be known as the club rooms of the law, medical, theological, arts and scientific students of New York. In the meantime our office is at 40 East 23rd Street and the rooms of the Association in an adjoining building are always open to students.

HISTORICAL SKETCH OF THE STUDENTS' MOVEMENT OF NEW YORK CITY.

The welfare of the students in New York City has long been a matter of concern to some members of the different faculties, to others interested in young men and to the thoughtful students themselves. The stream of over seven thousand young men who pour through our law, medical, academic and scientific schools could not but arrest attention and then arouse effort. Professor William H. Thompson of the University Medical College was one of the first to appreciate the situation, and in 1870 started his Bible Class which has now for more than twenty years had a strong influence upon the student community. In 1883, the Twenty Third Street Branch of the Young Men's Christian Association added to this uplifting force by its Sunday afternoon Medical Students, Meetings, by creating a helpful social life through receptions and by personal effort. Professor Henry Drummond visited this country in the winter of 1887-1888 and aroused general en-

thusiasm by his account of the new religious life in the old Scotch Universities. The students of New York were particularly interested and saw that it was time for them to advance the good begun by Professor Thompson and increased by the Association. Accordingly Dochstader's Theatre was leased and meetings were held on Sunday evenings for the members of all the colleges in the city. They were addressed by prominent men of the different professions and by delegations of students from some of the leading Eastern universities. In 1888-1889 Mr. George Donaldson, Cornell '88, was employed as Secretary and under his care the Movement made progress. The place of the Sunday night meeting was changed to the present Concert Hall of the Metropolitan Opera House, and the social side of the work was developed by means of successful receptions. Mr. William L. Thacher, Yale '87, and Mr. David Bovaird, Jr., Princeton '89, were Secretaries during the next winter. The main feature of the year was the formation of Bible classes and prayer meetings in the different colleges. The central meetings and receptions were continued. Last year, Mr. Warren H. Wilson, Oberlin '90, was employed as Secretary, giving his whole time to the work. The central Sunday night meetings now became monthly and the

change proved to be wise. The Movement seemed to become stronger and more definite as a result of Mr. Wilson's services. Mr. William L. Thacher, is to be Secretary during the coming winter. The Movement will simply advance in the directions which our history has taught are best. The monthly Sunday meetings, the receptions and separate college meetings will all be continued. We hope also to make a reality our plan of having permanent headquarters for the Movement which will solidify and clarify that which we are already doing and will also enable us to move forward.

FACTS OF INTEREST CONCERNING THE INSTITUTIONS REPRESENTED IN THE STUDENTS' MOVEMENT.

BELLEVUE HOSPITAL MEDICAL COLLEGE

is situated within the grounds of Bellevue Hospital, at the foot of East 26th Street. The Carnegie Laboratory across the street from the hospital is also a part of the College. It was founded in 1861 and requires a three years study of medicine before granting a degree. The winter session begins Wednesday, September 23rd, 1891 and ends Monday March 28th, 1892. There is also an optional spring session.

The students of this institution last year had a meeting on Saturday afternoons, at 2.45, in Manhattan Chapel. The meeting will be renewed. All members of the College are invited.

COLLEGE OF THE CITY OF NEW YORK

is situated at the corner of Lexington Avenue and 23rd Street. It was established in 1847, under the name of the New York Free Academy, but was incorporated under its present name in 1866. The College is a part of the public school system of the city and furnishes

free collegiate education to young men living in New York. Last year there were 1,115 students. The term opens this fall, September 17th and closes about June 20th, 1892. Last year, the College was only represented by individuals attending the meetings.

COLUMBIA COLLEGE

occupies the square East of Madison Avenue, between 49th and 50th Streets. It was first chartered in 1754 as Kings College. The name was changed to Columbia in 1784 because of the strong feeling against anything suggestive of Great Britain. The Law Department founded in 1860, Scientific Department founded in 1864, and School of Political Science founded in 1880, are on the same square as the Arts Department. The fall term of all four opens October 5th. The Arts had 273 students last year, Law had 623, Political Science had 73, and Mines had 277.

During 1890-1891 the different College Chaplains held a weekly Bible Class for the stud-

COLLEGE OF PHYSICIANS AND SURGEONS

is situated on 59th and 60th Streets, between 9th and 10th Avenues. It is the Medical Department of Columbia College, though the relationship has not been very close until recently. The gifts of the Vanderbilt family amounting to over a million dollars place the College in the front rank for facilities. The annual session opens October 5th and closes June 5th. The number of students last year was about 650. They held last year a weekly prayer meeting in Mizpah Chapel, on 57th Street each Friday at 5 P. M. It will undoubtedly be renewed.

COLUMBIA GRAMMAR SCHOOL

is on 51st Street, opposite Columbia College. It was founded as a preparatory school of Columbia and though now independent yet more of its graduates go to that college than to any other. The 128th school year opens Monday September 21st, 1891.

This school is the first to come into the Movement. The boys have met from week to week for a prayer meeting in the parlors of the Madison Avenue Presbyterian Church.

The meetings will be renewed during the coming winter. The time and place will be announced later. It is hoped that similar meetings may be started in other schools in the city.

DENTAL COLLEGE

opens in its new quarters, 205 and 207 East 23rd Street, on October 1st, 1891. "The purpose of the institution is to educate men to practice dental surgery as a *speciality of medicine*." No separate meeting was held last year, but the students attended our central meetings.

curriculum covers three years, comprising three different courses of lectures, with clinics and demonstrations. The College year consists of a term of six months. Fees for one course \$125. For graded course of three years \$200. The term opens October 1st, 1891. The number of students last year was 144.

INTERNATIONAL MEDICAL MISSIONARY SOCIETY

is situated at 118 East 45th Street. It contains 52 students, and its term opens September 14th. The institution aims to furnish a home and instruction for medical students preparing for the foreign field.

NEW YORK POLYCLINIC

is situated at 214 and 216 East 34th Street. It was organized in 1880-81, and opened in 1882 as a school of clinical medicine and surgery for practitioners. The term opens in the latter part of September, but practitioners will be admitted at any date. The charges depend upon the course pursued. The number of students enrolled last year was 462. The students only as individuals were interested in the Movement at the union meetings.

PACKARD'S BUSINESS COLLEGE

is situated at the corner of 4th Avenue and 23rd Street. It was founded in 1858. The term

opened September 1st, but students may enter any time, as the instruction is chiefly individual. There are five sessions each week, from 9.30 till 12 and from 12.30 till 2.30. The number of students is about 100. The students were only represented in the work as individuals at the central union meeting.

POST GRADUATE MEDICAL COLLEGE

is situated at 226 East 20th Street. It was founded in 1882 as an outgrowth of the former Post Graduate Faculty of the Medical Department of the University of New York. It gives advanced instruction to its matriculates both in general medicine and surgery and also in special lines. There were 469 students in the College last year. The fall term opens September 15th, 1891.

UNIVERSITY MEDICAL COLLEGE

is situated at the foot of East 26th Street. It was founded in 1841 as a department of the University of New York. The collegiate year is divided into three sessions: the Preliminary Winter Session, the Regular Winter Session and the Spring Session, the whole embracing a period of nearly nine months of continuous instruction. The Regular Session begins October 1st. The number of students last year was 696. For the degree of M. D.,

two full Winter Sessions must have been studied, and three years in medicine in all.

This institution last year held each Thursday, at 5 P. M., in Manhattan Chapel, on East 26th Street, a prayer meeting for its own students. This meeting will undoubtedly be renewed.

UNION THEOLOGICAL SEMINARY

is situated on Park Avenue, between 69th and 70th Streets. It was founded in 1836, and its Directors and Professors give their assent to the standards of the Presbyterian church. The term opens September 23rd, 1891. Last year there were 158 students.

AMERICAN VETERINARY COLLEGE

is situated at 139 and 141 West 54th Street. It was incorporated in 1875, and had last year 130 students. The course includes lectures in fundamental medical sciences and the special branches pertaining to veterinary medicine. Practical instruction is afforded in the hospital department, which is the largest in this country. The expenses are \$260 for the three sessions, all of which are obligatory upon candidates for examination. The term opens October 5th, 1891.

The students only were represented in the work last year as individuals in the central union meetings.

UNIVERSITY LAW SCHOOL

is situated on Washington Square, East, and was planned in 1835 by Hon. B. F. Butler. The Faculty was fully organized in 1859. The course embraces two years of study. The annual fee is \$100. Prizes and scholarships are offered for excellence in study. The Law Library, founded by John Taylor Johnston, has been enriched by recent donations by David Banks and others. The number of students last year was 184.

UNIVERSITY, ARTS AND SCIENCES

is situated on Washington Square, East. It was founded in 1829 to give instruction "in a liberal and extensive way in New York City." There are besides the courses in Science and Arts departments for the study of Civil Engineering, Analytical Chemistry and Pedagogy. The number of students last year was 465. The term opens September 23rd, 1891.

For a number of years, a branch of the Young Men's Christian Association has existed in the University. Their meetings are to be continued during the coming winter. A prayer meeting is held each Friday afternoon, at one o'clock, in the Council room. A Bible Class is also to be started. They are planning a reception at the opening of the term for the new students.

YOUNG MEN'S CHRISTIAN ASSOCIATION.

The Young Men's Christian Association is now thirty-nine years old, and each year its advantages to young men are multiplied. It now has twelve branches situated in different parts of the city. Some of them have been very generous to the students. They offer the "*Special Non-Resident Students' Ticket*:"
